This Section To Be Filled Out By A White Oak Garden Center Employee

Date Received: _____ Received By: _____

The **White Oak Garden Center Landscape Design Program** is designed to help you, the "Do-It-Yourself" homeowner, install a professional looking landscape.

We'll draw a professional landscape plan based on your specific needs, and you can install the plants yourself.

The process is as easy as 1-2-3!

Step 1: Fill out the questionnaire and return it to White Oak Garden Center. Photographs are also helpful.

Step 2: Meet with our landscape designer to discuss your specific needs. We'll design a professional landscape plan.

Step 3: We'll contact you when the design is complete. Then you're ready to plant your beautiful new landscape!

Please note that this service is intended for the "Do-It-Yourself" homeowners that will be installing the landscape themselves. For information on having a professional landscape installed for you, please contact White Oak Environmentals, the Landscape Division of White Oak Garden Center at 513-385-4717.

Questionnaire

1. Describe the area that you will be planting and how we can help you achieve your ideal landscape. _____

2. What direction does the area face? _____ Are there any overhangs above the planting area? _____
3. Is this area along the home's foundation? _____ If yes, what is the general color of the house? _____
4. How much time do you like to spend in your garden? _____
5. Are there views you would like to screen or preserve in this area? _____

7. Would you describe the area as wet, dry, or average moisture? _____
8. Will this area be used by children or pets? _____
9. Would you like areas for seasonal decorating (annuals, bulbs, holiday décor, etc.) in the design? _____
10. Does the designer have freedom to change the shape of the bed? _____
11. Below is an area to describe your Likes & Dislikes. Examples of Likes may be (but are not limited to) foliage color, flowering, evergreen, weepers, fall color, fragrance. Examples of Dislikes may be thorns, attracts bees, foliage color, etc).

Measurements and Details

Sketch the area to be designed on the graph below. Exact measurements are important so we know precisely how much room we have to work with. We can then plan your landscape to scale. Please include all details such as walkways, windows and how far they are from the ground, the location of water faucets, vents, meters, A/C units, etc. Also, be sure to indicate any existing plants that you would like to keep in the landscape. The more information you give us, the easier it will be to create your beautiful new landscape.

Scale: _____ ft. x _____ ft.
